PROJECTS

MyListing360 VR App

MyListing360 is a resource for Real Estate Agents and Brokerages as a response to the COVID Pandemic. Fewer Agents and Buyers are willing to visit homes in person due to restrictions so Agents have tried to come up with creative Solutions for showing listings. MyListing360 is a great simple solution to this problem by providing a resource for Agents to be build and share immersive Virtual Tours in only minutes using 360 images of the home.

Technology Used:
- ReactJS via "Create React App"
- A-Frame VR (Three.js and WebVr.js) to display images in a Virtual Environment
- Cloudinary for image hosting
- React Bootstrap for styling
- React Google Analytics for User data tracking
- HTML/CSS/JS

TOM STROTHER
SOFTWARE DEVELOPER

Becoming a Software Developer was an interesting path for me and certainly not a straight one. I spent 15+ years traveling in entertainment touring and corporate production. Over that time I discovered my passion and skill for problem solving and critical thinking. When I had a need to limit my travel I was excited to learn that Software Development was a perfect fit for my skillset.

I'm now focused on creative solutions for software development with a positive and calm mindset in any situation. I have a very diverse background in multi-media and event technology with a strong history in leading team driven project execution for clients with expectionats of flawlessness.

TECHNICAL EDUCATION

Software Developer

Nashville Software School | Apr 2020 - Sep 2020

Highly Focused and Intensive software development program. Full Time track with (JavaScript/ React/ Python/Django)

- Completed several web applications utilizing HTML5/ CSS/ Javascript/ React/ Python/ Django/ Postman/ and many others...
- Used Git/Github for version control on Individual and Group projects during the application build.
- 100% Remote work environment. Learned strong remote teamwork skills.

WORK EXPERIENCE

Project Manager and Director of Development

Gary Musick Productions | Sep 2018 - Apr 2020

- Worked directly with Clients to design and execute a vision for large scale projects world wide.
- Created monthly and weekly schedules for our production team balancing overlapping productions.
